Universitas Singaperbangsa Karawang | Karawang, Indonesia | EQF Level 6

- Received a bachelor's degree with cum laude honors and a GPA of 3.84

September 2022 - March 2026

Computer and Network Engineering

SMKN 3 Karawang | Karawang, Indonesia

- Awarded as the Best Graduate in Computer and Network Engineering major out of 100+ students.
- Gained solid foundations in computer networking, server administration, and hardware troubleshooting.

July 2019 - June 2022

CERTIFICATIONS

Junior Web Development

BPPTIK | Karawang, Indonesia

August 2023

Web Developer

DITEKINDO | Karawang, Indonesia

January 2025

ACHIEVEMENTS

PEKAN IT Competition (National)

HIMTIKA | Karawang, Indonesia

- 3rd Place in Software Developer Competition

October 2023

SEMANTIK Competition

HIMTIKA | Karawang, Indonesia

- 2nd Place in Software Developer Competition

April 2023

PROJECTS

Online Test Unsika

June 2024 - August 2024

Fullstack Web Developer | Karawang, Indonesia

- Designed and developed a lightweight, high-performance online examination platform for UPA Bahasa UNSIKA to replace their resource-heavy Moodle system.
- Built and optimized the web application architecture to ensure fast loading times and low server strain during concurrent student test sessions.
- Successfully deployed the system as the official platform for the SEP-T (English Proficiency Test), a mandatory graduation requirement, serving over 1,500+ active student users to date.
- Delivered a highly sustainable software solution that continues to be fully operational and trusted by the institution post-graduation.

E-Checksheet Pre Use

March 2025 - June 2025

Fullstack Web Developer | Karawang, Indonesia

- Developed a digital pre-use checksheet application to streamline and digitize the manual machinery inspection process before daily production lines start.
- Implemented a structured database to securely store inspection logs, eliminating paperwork and improving data accessibility for factory auditors.

E-Checksheet Apar

April 2026 - June 2026

Fullstack Web Developer | Karawang, Indonesia

- Developed a digital inspection and monitoring application for fire safety assets (APAR & Hydrant) to digitize manual safety checks and ensure regulatory compliance.
- Enabled the HSE (Health, Safety, and Environment) team to generate real-time inspection reports, significantly reducing the time spent on manual auditing and paperwork.
